

Caring for Your Jacuzzi with Reserve & Aqua Finesse

Upon fill up:

1. Add 4oz of **Reserve** (per 250 gallons) directly to water
2. Insert **Mineral Cartridge** into filter or onto filter basket
3. Add 2 oz. of **Renew** directly into water
4. Check Ph with **Test Strip**
5. Adjust Ph as necessary with **Spa Up** or **Spa Down**
6. Add 6 oz of **Aqua Finesse**

After each use:

1. Add 2 oz. of **Renew** directly to water

Weekly Maintenance:

1. Check Ph with **Test Strip** and adjust as necessary
2. Add 6 oz. of **Aqua Finesse** directly to water

Thursday's [and in some cases Sunday's]:

1. Add 2oz. (per 250 gallons) of **Reserve** directly to water

Weekly or as needed:

1. Add 2 oz. of **Bright & Clear** if water is cloudy or if spa develops a scum line around water
2. Add 2 oz. of **Foam Down** if water is excessively foamy

Monthly:

1. Apply **Cover Care & Conditioner** to cover to protect from UV rays
2. Remove filters from the spa. Rinse filters thoroughly and reinstall into spa.

Every 3-4 months:

1. Drain spa and wipe down shell with a cotton towel. Once dry, apply a thin layer of **Fast Gloss** to the shell, allow 15 minutes to dry, and wipe off with a clean cotton towel.
2. Remove filters from the spa. Dilute one bottle of **Filter Clean** in four gallons of water and allow filters to soak for at least three hours. Rinse filters thoroughly and reinstall into spa.
3. Refill spa and refer to the Upon fill up portion above
